

Shrishti International School

Session 2017 - 18
FOR THE MONTH OF July
THEME: - Monsoon

Happy
Monsoon

Dear parents,

Warm greetings.

Long and Lazy summer holidays, the days when you visited relatives and friends and new places are over.

Your kids kept you occupied whole day, and I am sure you all awaited eagerly for the day your child will finally put on his school uniform and resume his or her school routine.

We, too looked forward to seeing their beaming faces and enthusiastic babble, as they share their holiday experiences, impatiently, with teachers and their friends.

The dark clouds have started gathering, heralding the monsoon.

The welcome Rains! The cool showers! Oh! The lovely monsoon season has arrived.

The pitter patter sound of rains, the thundering of the clouds is the **loveliest music** in the world.

The scent of the moist earth is the **most wonderful fragrance**.

The rain washed lush trees, splash of colour in the sky when the rainbow appears is most **picturesque sight** in the world.

The merry laughter of children as they splash in the rain puddle is the **most melodious** song.

Let's open our arms and welcome the first shower of the monsoon.

All activities during this month revolve around the theme of the month **“The Welcome Rains”**

This whole month will be packed with joyful learning experience, exposure towards their surroundings, physical activities, art and craft and much more.

So Happy Parenting.....

News Letter

From : The class teacher.

Theme : Monsoon

Month : July

Date :

Dear parents,

“Warm Greetings”

Change is an inevitable/ integral part of life. Change signifies growth and development. We, at kindergarten have introduced certain changes for the better; which I am sure, have not gone unnoticed. For Ex – all forms of learning has been associated with life skills and physical/ social/ emotional equilibrium of your child.

Language is being taught on L S R W procedure – Listening, Speaking, Reading, and Writing.

Time was allocated to activities related to Cognitive Development – conceptual learning, memory & observation, sequential thinking, classification, comparison, problem solving etc.

Socio – Emotional development of Pre – primary children has not been overlooked. Emotional quotient (E.Q.) of your child is as important as enhancing his Intelligence Quotient (I.Q.). Group games, group tasks, skits, role plays, have gone a long way in making your child emotionally strong and socially active.

We have tried our level best to make each day of your child enjoyable and fruitful. We look forward to your continued support and guidance

Please do not hesitate to share your views regarding your child’s academic and co – scholastic growth.

Thank you

Class Teacher
