

SHRISHTI INTERNATIONAL SCHOOL
ACADEMIC / ACTIVITY CALENDER October (Cleanliness) 2017 -18

Dear Parent,

In the previous months the students came to know about their hidden talent and improved their moral skill as this is the most important aspect for the development of a child. By the efforts of the teachers and the parents students enhanced their creative skills .They also came to know that acceptance is very important in life .We all have to accept failures also in life as we accept happiness and success.

Apart from all this now it's time to take care of health also and cleanliness is the most important aspect to be healthy. We should not only keep our self clean but keep our surrounding clean. Let's take a step forward for this. In the month of November students will be focused for the annual day celebrations.
