

Shrishi International School

Session 2017 - 18
FOR THE MONTH OF October
THEME: - Festivals

Dear parents,

Warm greetings.

We have come to the middle of the academic session. The journey so far was full of joyous learning experience.

Various facets of learning – Language, Numbers, cognitive, were put to test and your child's participation evaluated on various parameters like Recognition, Formation Grasping memory, class activity participation etc.

October is the month of festivity and festivals mean rejoicing and celebrations. Cultural identity of a person takes root at home and finds expression in the manner festivals are celebrated. So the theme of the month in October is festivals.

India being a land of diverse cultures, we celebrate so many festivals and there are so many different ways to celebrate them. We teachers try to give our little ones a glimpse of all important festivals, Raksha Bandhan, Friendship's Day, Janmashtami, Independence Day, Navratra, Dussehra were all observed with great zeal. Our children's participation and performance was a great delight to watch.

Similarly certain occasions in school are no less than a festival such as Teacher's day, Annual sports day and Shrishti Champions League etc. Our children participated enthusiastically.

Childhood years at Kindergarten will form the basis for your child's Socio – Emotional and Ethical growth. All such activities play crucial role in the character and personality building of your child.

Please do not hesitate to share with us the changes you are noticing each day, how your child is growing and learning new things how his mannerism and etiquettes are taking shape.

So watch your child bloom.....

Pre primary activities (Co – scholastic)

Theme – Festivals

News Letter

From : The class teacher.

Theme : Festival

Month : October

Date :

Dear parents,

“Warm Greetings”

It was a month of celebration and rejoicing as we step into the second term of an academic session in November.

The days are getting shorter, cooler and pleasanter children will be more happy out in the sun as the winter knocks in and this is exactly what we plan to do in the days to come.

Academically kids have proved themselves through the first evaluation classroom activities were artistically designed with Diwali decorations, greeting card making, diya decoration to develop their aesthetic skills.

Go – Green theme was emphasized when children were explained the harmful effects of using too many crackers, causing pollution and to refrain from them.

In the months to come we will work together on strengthening their phonic sounds and letter association so that they are able to listen and comprehend exactly what and how they have to write.

All three facets of learning language i.e. listening, speaking and reading will be so strengthened that writing will come naturally to them.

Pre – school days of your child are formative days and all forms of learning are through play full interaction amongst teacher and the taught.

So watch your child take one – small step each day.....
